Acknowledgement

Just Peace Internatioanl (JPI) extends its gratitude to District Administration, Line Departments and Target communities in D.I.Khan for their support and cooperation in implementation of Project titled “*Restoring Livelihood, Community Based Infrastructure and Governance in four U/Cs (Shorkot, Kech, Dhap Shumali & Wanda Khan Mohammad) of District D.I. Khan.*”. The interest and contribution of Honorable Mr. Samiullah Alizai (MPA-D.I.Khan), Mr. Hammadullah Khan (DRM Coordinator-D.I.Khan), Mr. Jamil (Dy. Manager-NADRA-D.I.Khan), Mr. Saif-ur-Rehman (Principal-GVTC-D.I.Khan) and Mr. Khalid Fayyaz (Humanitrian Affairs Officer-UNOCH-D.I.Khan) and other Social & Political Leaders are highly appreciated. We extend our thanks to all the direct and indirect beneficiaries who’s interest made the project activities successful and meaningful towards highlighting possible options of community mobilization regarding planning, implementation and monitoring of the project activities in target union councils of D.I.Khan.

More over at community level JPI is thankful to Mr. Abdul Razzaq (President CO-Awan-Dhap Shumali), Mr. Abdul Majeed Baloch (President CO-Thatta Baloch-Dhap Shumali), Mr. Allah Nawaz (President CO-Kech-Kech), Mr. Malik Khanan (President CO-Shah Hassan Khel-Wanad Khan Mohammad), Hafiz Ghulam Qadir President CO-Himmat-Shor Kot) for their support and personal interest in project interventions.

The efforts of Media in highlighting the project visibility at local and provincial levels are also appreciated, especially Mr. Yaseen Qureshi (correspondent PTV and Nawa-e-Waqt, D.I.Khan) and Mr. Sailab Mahsud (correspondent radion Mashal, D.I.Khan) extended their due efforts for promotion and visibility of the project interventions.

The organization will take this opportunity to appreciate the interest of COs members, who ensure their cooperation and actively participated in project activities and participatory monitoring of hard and soft components of project.

The Project management and field staff, who worked in one of the most conflict and flood affected zone of Pakistan with all possible threats. But their devotion and dedication to the cause ensured the timely completion of project and contributed in a positive change in attitudes and behavior towards self dependence and self esteem.

1.2 About D.I.Khan:

It is situated on the west bank of the Indus River, 320 km west to Lahore and 190 km northwest of Multan. D.I.Khan is also linked with the rest of the cities of KPK by roads which stretch about 300 km down from Peshawar passing through Kohat, Karak and Bannu.

Dera Ismail Khan has population of round about 1.188 million of which 80% is rural based. Literacy rate stands at paltry 31%. D.I.Khan has five Tehsil: D.I.Khan, Kulachi, Paharpur, Paroa and Draban and 47 Union Councils (UCs).

Lacquered woodwork, glasswork, mat and ivory work and lungis (sarongs) are the chief hand-manufactured goods. Wheat, rice, sugarcane and famous variety of mango called the langra. The most desirable langras are grown in the village of Panyala. are the major crops cultivated in the surrounding areas, one of the most famous product of this district is the “Dhakki date”, which is exported to the Middle East, United States and Europe. Camels and sheep are extensively bred.

1.3 Brief History of the Project:

The recent monsoon flash floods in Khyber Pakhtunkhwa (KPK), Kashmir, Gilgit Baltistan, Balochistan and Punjab have claimed well over a thousand lives and affected more than 15.4 million people across Pakistan, including women, children, elders and the disabled. Millions are without a home, displaced and in search of food and shelter, as outbreaks of water-borne diseases emerge. Mass destruction was caused to houses, schools, hospitals, link bridges and roads.

The UN System's Multi-cluster Rapid Assessment Mechanism (McRAM) data shows a strong demand for early recovery interventions and that most households surveyed have consistently prioritized land reclamation, cash, tools for land preparation and additional agricultural supplies as high-priority livelihood recovery needs. Assessed households have described serious impacts to their businesses and jobs, with most reporting that their employment has been totally discontinued.

The enormous damage dealt with environment and livelihood needs integrated actions to halt and reverse the environmental and economic degradation with due interest and involvement of the people. The situation further demands measures directed towards reversing environmental damage, livelihood concerns and initiating life processes through involvement of different groups of the affected population such as flood affected populations, Women youth and children (both male and female) and public and private institutions in the early recovery measures to consolidate on existing peace.

Debris from private residences and government lying in open requires removal. Conditions and the vast damages that floods have incurred are the obstacles in removal and recycling by the affected people. The people need to be helped through cash for work to deal with this problem as it would prepare the ground for further reconstruction and rehabilitation activities

In order to cope with the issue JPI planned to implement this project with the following major components;

1. Restoration of Livelihood System new/alternative income options.
2. Community Infrastructure Restoration.
3. Support for local Governance

2.1 Project Synopsis:

A. Planned Project Objective:

Provide livelihoods opportunities to flood affected people on door step by restoration of and support to Livelihood System, Community Infrastructures and Governance in 4 UCs of D.I khan (shoarkot, kech , dhap shumali , wanda khan Muhammad).

B. Planned Project Activities:

1. Detailed Beneficiary Need Assessment and preparation of beneficiaries' database.
2. Sites selection; Identification of most affected villages.
3. Formation of 25 male and 25 female livelihood committees; These Livelihood Committees would be formed in consultation with local communities during the mass meetings as representative bodies to participate in decision making of the project on behalf of local communities. The LCs may comprise, male and female councilors, religious leaders, school teachers and other social activists.
4. 600 community members in the targeted union councils will be engaged in cash for work activities for a minimum period of 3 months. The cash for work activities will include rebuilding of community infrastructure.
5. 300 small scale local enterprises will be supported through Cash Grant of PKRs.30000 per beneficiary. This support will be extended to small shopkeepers, carpenters, blacksmiths and other enterprises. Criteria for the cash grants will be as; extremely vulnerable families like flood affected families; women headed HH, people with disabilities, Participants of the skills training program. Along with cash grants trainings will be provided on enhancing traditional vocational skills especially for women. These trainings will also focus on enhancing marketing skills.
6. 40 small scale low cost community infrastructure schemes will be identified that need repair and improvement. This includes access roads, pavements, culverts, paths, retaining walls, small bridges, drainage, community centres, Health Centres, local mosques and other communal facilities. Local Human Resources will be developed by training (with the support of TVETA) and backup support for effective operation and maintenance of infrastructure will be provided to ensure skills development and sustainability, followed by the provision of tool kits and link them with the cash for work program.
7. Provide transport to the 5000 including women, elders and handicapped affectees for their access to the NADRA office for CNIC registration and back. JPI will collect the CNICs and will ensure home delivery.
8. Providing clerical facilitation to the estimated 1500 to 2000 students to recover their degrees, certificates and domiciles.
9. 450 individuals including 150 male and 300 female from the target flood affected communities will be trained in different disciplines to have an opportunity to upgrade their life standard by improving their livelihood.

Project Completion Report

After successful completion of training the participants will be provided a toolkit or and raw material (cloth, thread, fabric colour etc.) in order to support them for initiating their own business to earn their livelihood.

10. Carrying out of 4 sessions on Disaster Risk Management one in each target union council each having 50 local participants thus educating 200 locals on DRM.

2.2 Achievement Analysis under Project Components:

Activity-1 & 2: A Detail beneficiary needs assessment and site selection in 4 UCs of District DIK.

Initially detail beneficiaries need assessment and preparation of database was the main objective of the project. The main purpose was to identify the most affected villages in 4 UCs (Dhap Shumali, Kech, Shorkot and Wanda Khan Muhammad) of District D.I.Khan.

Considering the gender dynamics of information to be collected, both male, female social organizers and engineering staff were deputed to carry out the assessment. The survey team comprised of six members and worked in two groups, each group was comprised of two male (Consisted of a social organizer and a project engineer) and One female, working to gather required information.

Data was primarily collected using a structured questionnaire to obtain village-level information. The questionnaire was divided into two sections: questions from the first section were asked to men (related to basic information, number of casualties, affected household and damaged infrastructure schemes etc) and questions from the second section (related to health, vulnerable children and education etc) were asked to women (See Annexure-I).

The assessment enhanced the staff in identifying the area and beneficiaries for different components of the project interventions and now they are able to plan comprehensively for implementation of the project interventions. 46 villages in four U/Cs identified that were the most vulnerable.

Activity-3: Formation of Community Organization-COs (M+F)

Project target was to establish 25 male and 25 female community organizations, JPI accomplishment in respect of set target are 45 male and 33 number of female community organizations in 4 UCs of District D.I.Khan (See Annexure-II).

These Livelihood Committees were formed in consultation with local elders during the mass meetings by the JPI social staff members.

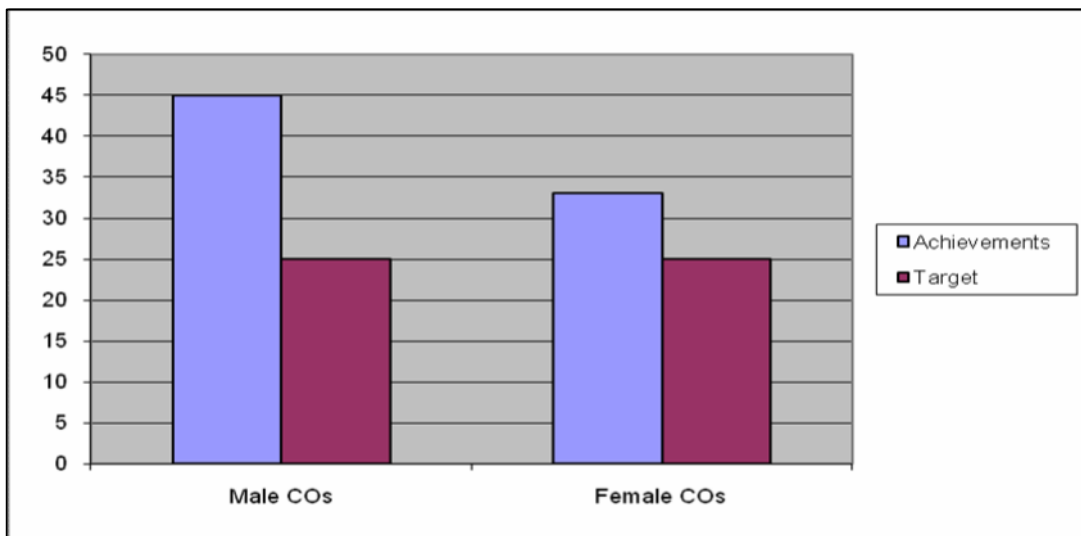

Project Completion Report

Representative bodies of the members were chosen by raising hand method by the entire participant during a meeting in each village. Furthermore, the representative bodies of the livelihood community organization participated in decision making of the project on behalf of local communities.

These livelihood male and female community organizations were facilitated by providing skill trainings, cash grants and were solve the CNIC and student documents issues of deserving male and female referred by CBOs elders. Infrastructure schemes were also be inaugurated through proper identification by community members and elders.

Livelihood committees started functioning and played active role in planning, implementation and monitoring of the project interventions

Activity-4: Involve 600 deserved individuals in CfW.

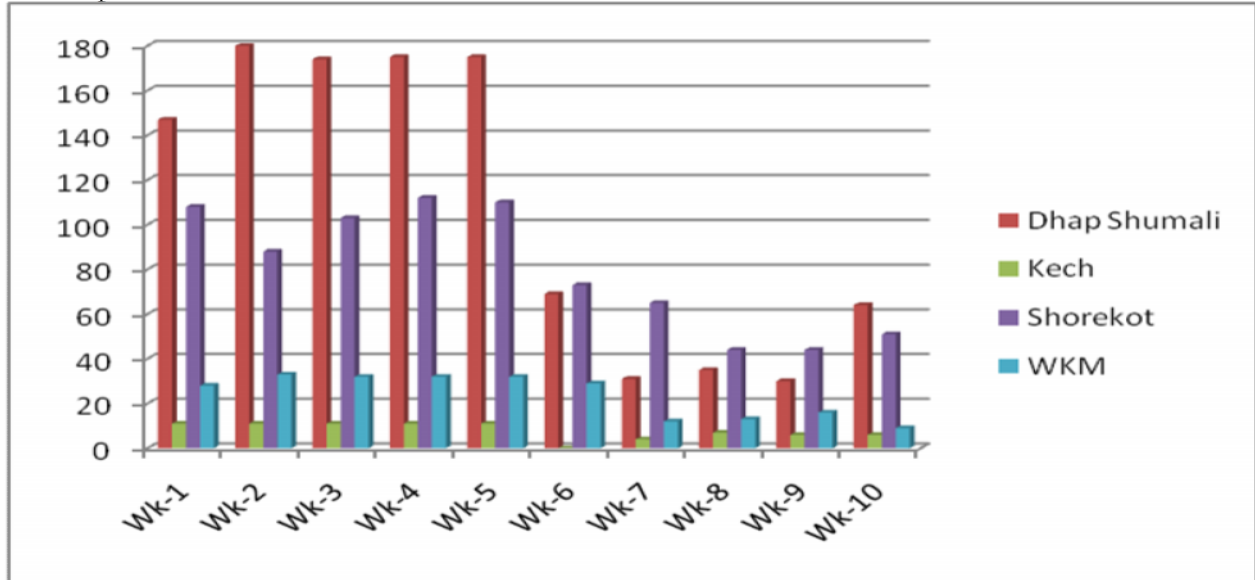

It was planned that 600 community members in the targeted union councils will be engaged in cash for work activities for a minimum period of 90 days. The cash for work activities will include rebuilding of community infrastructure. The purpose was to uplift the socio economic conditions of the vulnerable individuals in the target communities that at least they can earn their butter and bread for the mentioned period.

In consultation with the livelihood committees identified and finalized the vulnerable unskilled youth in the target communities based on the required scope of work. Maintained record of attendance and payments of the engaged labour on daily and weekly basis. (See Annex-III)

Project Completion Report

At the end of the project, the total 13152 man days have been completed in 10 weeks at the average of 300 individuals per day have been engaged during restoration of CBIs against the planned 600 individuals per day DUE to budget limitations. The CFW was included combined with the materials & transportation of CBIs cost.

Activity-5:
Identification & Disbursement of Cash Grants among beneficiaries:

The project target was to facilitate 300 small scale local enterprises through Cash Grant of Rs.30,000/- per beneficiary. This support was

extended to small shopkeepers, carpenters, blacksmiths and other enterprises. The target people for the cash grants were; extremely vulnerable families like flood affected families; women headed HH, people with disabilities, Participants of the skills training program.

Three 300 deserved beneficiaries have been identified on the basis of preset criteria in consultation with the livelihood committees.

In the first phase 85 numbers of cash grants have been disbursed in a ceremony in which livelihood committed, JPI staff participated and later on cross verified by district administration. Remaining cheques of the 215 cash grant were distributed on 8th June, 2011 (**Annex-IV; Cash Grants Beneficiaries List**).

The cash grants have been disbursed to the identified beneficiaries from 4 UCs of District D.I.khan These individuals were identified on the basis of extremely vulnerable families like flood affected families; women headed HH, People with disabilities. These

Project Completion Report

vulnerable individuals were identified and finalized by the concerned livelihood committee in their meetings and then forwarded resolution to JPI project team for further verification and finalization, finally processing of the grant for them as well. A proper ceremony was organized for distribution and these cash grants in which the representatives from UNDP, district government, NDMA and other elected representatives participated along with the local and provincial media representatives from print and electronic media also participated for coverage of the event, the event report has already been shared with UNDP. Summary of the CG beneficiaries are given as following;

Activity-6:
Identification &
Construction of
CBIs:

40 no of small scale low cost community infrastructure schemes had been identified in 4 UCs, by the engineering and social staff members of JPI that need repair and improvement. This includes access roads, pavements, culverts, water reservoirs, Water Tanks, drainage, community centres, local mosques and other communal facilities. The schemes identified following

consultation with the local communities through livelihood committees. All 40 schemes have been successfully completed. Details of the schemes given as following; **(Detail is also attached at Annex-V)**

Summary of the CBIs is as under

Activity-7&8:
Governance

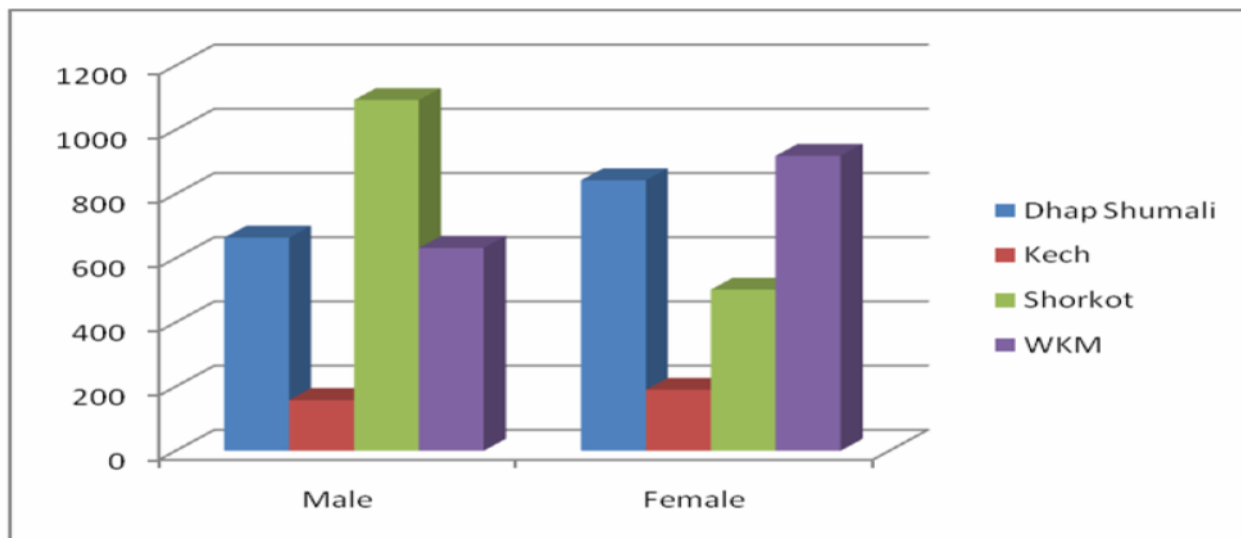

JPI plan was to provide transportation facility to 5001 including women, elders and handicapped affectees for their access to the NADRA office for CNIC registration and back. JPI has collected the CNICs and ensured home delivery.

In this capacity JPI social staff members both male and female by mobilizing respective community elders achieved a target of 5001 cases in all 4 UCs, which includes 2547 male and 2454 female from different UCs of District DIK. The community elders were given a task to identify the deserving male and female members who doesn't have or lost their CNIC or student documents during the

participants were provided a toolkit or raw material (cloth, thread, fabric colour etc.) in order to support them for initiating their own business to earn their livelihood.

JPI social staff members both male and female and livelihood committees identified the individuals for both male and female skill training. livelihood committees were given a task to provide the lists of deserving individuals from their respective villages through proper agreement signed

by the Chairman, Secretary and community members.

Later on one month duration skill training for 450 individuals (150 male & 300 female) was started

from 10th of January 2011 with the help of Government Technical & Vocational Centre-DIK (GTVC-DIK), which was

successfully completed on 10th February, 2011.

Male members were provided skill training at GTVC, while female

members were trained at UC level community based centres in Karamatabbad & Kokar (UC Shorkot), Awan & Thata Balocha (UC Dhap Shumali), Kech (UC Kech) and Rehmani Khel (UC WKM). Report of the activity annexed as **(Annex-VIII)**

Activity-10: Disaster Risk Management (DRM)

Four sessions of Disaster Risk Management (DRM) have been conducted in the month of February, 2011, in four Union Council (UCs) of District D.I.Khan i.e. Dhap Shumali, Kech, Shorkot and

Wanda Khan Muhammad.

Union Council	Village	Project Target	No. of Participants	Target Ach; (%)
Dhap Shumali	Mosakar	50	156	312
Kech	Kech	50	52	104
Shorkot	Shorkot	50	53	106
Wanda Khan Muhammad	Katta Khel	50	78	156

Wanda Khan Muhammad.

These sessions enhanced the potential and capacity of local target population in proper measures to minimize the risk of disaster weather it is natural or manmade.

The target has been achieved with the increase number of respondents for this activity i.e. exceeded the target of participants

STORY OF MR. IMAM BAKHSH

50 year old Mr. Imam Bakhsh is the resident of village Moosa Khar, UC Dhap Shumali District D.I.Khan. He had 8 children including 2 girls and 6 boys. A year ago one of his 18 years old son who was running general store in the village suddenly died. There was no one to operate and precede that business except his father 'Imam Bakhsh'. After that great loss to his family, Mr. Imam re-established that store but unfortunately he could not keep that business for a long time because of devastating flood water and heavy monsoon raining in the area. Raging flood and heavy monsoon rains destroyed houses, shops and infrastructural schemes in the village, Imam Bakhsh shop was one of them.

His store was completely destroyed in that flood, he was poor and haven't that much resources to reestablish his business again. He was in miserable condition and was hand to mouth due to lack of opportunities available in his village.

JPI team visited his village and found him entitle for the cash grant of Rs. 30,000/- under enterprise component. After collecting detail information Mr. Imam Bakhsh was given a chance to reestablish his general store and was given a cheque of worth Rs. 30,000/- in enterprise ceremony held on 14th February, 2011, in D.I.khan JPI main office.

After 2 weeks JPI staff visited his village and found that he has started his general store again and is able to support his family and their needs.

He was so happy and grateful to JPI and UNDP for helping him out from his miserable condition.

STORY OF MR. IMAM DIN

65 years old Imam din S/O Ahmad Din is a resident of village Shorkot UC Shorkot, District D.I.Khan. He has 9 children. Imam Din was running a general store in village Shorkot. That store was the only source of income for his whole family. Recent flood water also hit Shorkot village badly, which causes several damages to houses, drainage system, streets and shops. Imam din's general store was also washed away because of heavy rain and raging flood water. He lost his business which was the only source of income for his whole family; he was totally deprived, and had no any other source of income.

After intervention of Just Peace International (JPI) in Shorkot village, its social staff members found Mr. Imam Din eligible and most deserving case under its enterprise activity. JPI staff collected all required information and later on gave him a check of Rs. 30,000/- under its enterprise activity.

Later on JPI staff went his village for follow up of its enterprise activity; they found Mr. Imam Din busy in his new general store with smiles on his face. He was very thankful to JPI for helping him out from his difficult time.

NOC issue

NOC from local administrative authorities is still under progress, in this respect PDMA forward the case to SSG Head Quarter One for clearance. With hope the issue will be resolved soon, but before getting clearance JPI couldn't continue its activities in District D.I.Khan freely as per DCO directions. In this regard JPI followed up the process with PDMA BUT still there seems no hope.

Governance

Regarding governance JPI planned to provide transport to 5000 individual including women, elders and handicapped affectees for their access to the NADRA office for CNIC registration and back. JPI will collect the CNICs and will ensure home delivery.

Now regarding the NIC till date more than 50% of the target has been achieved BUT regarding the students documents the number of cases identified is insignificant because during the Benazir income support program most of the local community members have made their CNICs for watan card and the students that were identified during the preliminary assessment have recovered their documents as well.

Cash for Work:

Regarding Cash for Work, it was mentioned in JPI technical Proposal that 600 individuals for minimum of 90 days will be engaged. But in Financial proposal (Budget) the amount for this activity was not included by mistake. This has created limitations to the implementation and reduced the number of CfW beneficiaries.

During the course of JPI interventions within the target communities in the selected 4 union councils of DI Khan, over the last five months, there were some important lessons learnt which are presented below for sharing:

5.1 LESSONS LEARNT:

5.1.1 Empowering the Communities;

The local communities (in shape of livelihood committees-M+F) have been empowered so that they could facilitate the planning, implementation, monitoring & evaluation processes more efficiently on sustainable basis. Empowering community organization will lead to achieve maximum impact of the project.

5.1.2 Gender Balanced Approach;

Due to the conservative society of the region female activists are usually not involved in decision-making or they themselves take any initiative until they are pushed to do something. Looking in to the situation JPI has tried to involve them in each and every step of the project cycle.

5.1.3 Dependence on few for all...!

Too much dependence on so few elected community representatives without regular consultations with the majority of the community members has proved a counter productive approach towards effective and sustained community participation.

5.1.4 Conducting Training is not simply imparting messages...!

Training program if executed in its real spirit, at the right time, by the right person with the right commitment can certainly help in “changing the attitudes of the most stubborn” and improve their sense of self-reflection.

5.1.5 Coordination;

Initial large meetings with the communities organized by JPI helped avoid duplication and identify areas of collaboration.

5.1.6 Low profile security strategy;

As there was security threats in the area when JPI starts its project in DIK, but we kept our profile very low, and we are very successful till now. Currently security situation is much better for developmental activities.

5.2 RECOMMENDATIONS:

5.2.1- LIVELIHOODS:

A. Findings

- Concept of Community Organizations (COs) is new in majority of the areas. JPI established 46 number of male and female COs in 4 UCs, but still a lot of work have to be done.
- The main source of population is Agriculture, Cattle, handicraft, Dairy, poultry, jobs and small scale business.
- Shops have been destroyed especially low scale shops and street vendors have been washed by flood and still they are helpless.
- Youth especially women participation in handicraft is measurable but should be maximized to other sectors of livelihoods.
- Damages to roads/link roads and bridges have minimized access to market. It also disturbed demand and supply chain, as local handicraft and poultry cannot reach to market on time and supply of food items is delayed which raised prices.

B. Recommendations/Solutions

- Identifying community needs and mobilizing the community to fulfil their need by their own to ensure sense of responsibility and ownership, can lead to achieve maximum impact of project. Already existing community organization can be strengthened by social mobilization process.
- Women role in social activities should be maximized.
- Agriculture can be restored by provision seeds and fertilizers/urea. Restoration of irrigation channels/systems is also important to restore agriculture.
- Shopkeepers and street vendors will require cash grants to restore their livelihood.
- Technical skill trainings should be planned for potential youth (men & women) to uplift their livelihood.
- Linking roads/bridges and culvert need immediate restoration to maximize access to markets

5.2.2- GOVERNANCE:

A. Findings:

- Majority of government institutions at district level and UC level have lacking equipments and needs building restoration/renovation.

B. Recommendations:

- Capacity building of the local staff
- Repair or reconstruction of the damaged Offices/schools/health centers.
- Up-gradation of government offices by providing IT equipments.

5.2.3 COMMUNITY BASIC INFRASTRUCTURE:

A. Findings

- Link Roads, bridges, culverts, Irrigation channels, drainage system, Canals, Mosques/Imam Bargah, Funeral places, streets, Cattle water drinking pounds etc got damages. The Link roads, bridges and culverts has minimized access to markets, Mosques/Imam Bargah, Funeral Places, Community centers are the places where social and religious gathering occurs, damage to such places can reduce social gathering and may cause social disputes. Irrigation channels and canals damage have caused damages to on farm agriculture.
- Restoration of link roads, bridges, culverts, irrigation channels, streets, Cattle water drinking pounds and mosques should be restored on priority bases.

B. Recommendations:

Restoration of CBIs which links the communities to market should be restored on priority bases.

5.2.4 DISASTER RISK MANAGEMENT (DRM):

A day before flood, the community received warning to evacuate from the area, But no facilities were provided by the government. They had to leave everything even utensils, seeds and other stocks to the flood.

There is no proper system of Disaster risk Management. A village level committee should be formed to look after disaster warnings. The committee will raise funds on self help bases and will purchase life saving equipments like tractor tubes/traditional boats.

A. Findings

- No proper warning ever received before any disaster, non of the community understands warning signals.
- During recent floods, women, children and old age people were evacuated on priority and youth and energetic men helped each other and communities in transferring cattle, poultry and other goods to safe places.
- Neither the government nor the elected representative supported the communities in disaster preparedness.

B. Recommendations:

- Proper DRM trainings should be organized in area (separate for male and female)
- Proper Disaster Risk Management mechanism should be established at UC level.
- A village level committee should be formed to look after disaster warnings. The committee will raise funds on self help bases and will purchase life saving equipments like tractor tubes/traditional boats.
- Youth (men & women) groups may be formed and trained to utilize youth of the communities in disaster preparedness and management.
- Establishment of early warning system.
- Establishment of DDMA
